**Smart  
Facts**

Omega-3 fatty acids are "good fats" that help to balance the "bad fats" in your diet. By helping to balance the bad fats in your diet, Omega-3s, such as EPA and DHA, play an important role in supporting the immune system, as well as helping to maintain circulatory and metabolic health.\*

\*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

\*\*Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease. One serving of Sundown Naturals' Fish Oil provides 720 mg total of EPA, DHA and other omega-3 fatty acids. See nutrition information for total fat, saturated fat and cholesterol content.
